PROFESSIONAL SUMMARY

Results-driven Software Engineer with 4+ years of experience specializing in full-stack development, cloud computing, and DevOps automation. Expertise in React, TypeScript, Java, Spring Boot, AWS, and CI/CD pipelines, delivering scalable, high-performance applications. Proven ability to reduce operational costs, enhance security, and streamline deployment processes. Passionate about building innovative software solutions that enhance user experience and drive business growth.

TECHNICAL SKILLS

Programming: Java, JavaScript, TypeScript, Python, C#, Dart

Frameworks: React, Node, Spring Boot, .NET, Flutter, Redux

Cloud & DevOps: AWS (SQS, SNS, Lambda, DynamoDB, S3, API Gateway, Cognito, Amplify, CloudFormation), Docker, CI/CD, GitHub Actions, Terraform

Testing: Jest, JUnit, Mockito, Cypress, Selenium

Database: SQL, MySQL, PostgreSQL, DynamoDB, MongoDB

Security: IAM, OAuth 2.0, Splunk, Wireshark

Project Management: Agile (Scrum, SAFe), Jira, Confluence

Operating Systems: Windows, Linux, iOS, Android

Scripting: PowerShell, Bash

EXPERIENCE

Cedarware Corporation

San Marcos, California (Oct 2024 – Present)

Software Engineer

Developed and engineered software solutions for cutting-edge medical and commercial devices, developing **Flutter** based mobile apps utilizing modern technologies like Bluetooth, BLE, LoRaWan, and **AWS Sidewalk**, built **Python** automation scripts to optimize workflows, and desktop applications to streamline manufacturing, reducing production time and cost.

- Engineered a desktop application that automated device provisioning, reducing production time by 300+ hours per device and cutting operational costs by \$500k annually.
- Strengthened customer's security posture by implementing **AWS Cognito** authentication, enhancing access control and reducing unauthorized access incidents by 90%.

Zero Day Associates

Remote, California (March 2024 – Oct 2024)

Cloud Engineer

Developed and deployed scalable web applications for clients using **React**, **.Net**, and **AWS cloud services**. Designed full-stack solutions, integrating **serverless architectures** with **AWS Lambda**, **S3**, and **DynamoDB**. Delivered customer-focused solutions, optimizing performance, reducing costs, and automated CI/CD pipelines streamlining the development and enhance high availability.

- Deployed scalable web applications leveraging **AWS Lambda**, **S3**, and **DynamoDB**, and automating deployments with **GitHub Actions** improving client deployment efficiency by 25%.
- Developed **serverless architecture**, reducing application latency by 30% for a smoother user experience.

Prime Video & Amazon Studios

Culver City, California (Aug 2022 – Feb 2024)

Software Development Engineer

Enhanced user experience for catalog administrators by optimizing the **React-based UI** for responsiveness and usability. Leveraged **AWS Lambda**, **DynamoDB**, **SQS**, and **SNS** to streamline data storage, processing, and **microservices** communication. Built, integrated, and tested **REST APIs** to handle complex business logic in a **serverless architecture**.

- Optimized database performance, reducing query response times by 30% using **AWS Lambda** and **DynamoDB**.
- Redesigned **React-based UI**, improving usability and reducing task completion time by 20%.

Interrogas

Remote, California (Feb 2021 – Aug 2022)

Full Stack Software Engineer

Developed and maintained a scalable application using client-side and server-side technologies, ensuring optimal performance and user satisfaction. Led business process modeling, project management, and effective communication with cross-functional teams to deliver high-quality software products.

- Integrated **RESTful APIs** with **ASP.NET Core**, enhancing data communication and reducing API failures by 20%.
- Optimized **MS SQL Server** database performance, improving query efficiency by 15%.

CERTIFICATIONS

- | | |
|--|--|
| • Google Cybersecurity Certificate | Google (<i>Jan 2025</i>) |
| • Apprenticeship in Software Engineering | U.S. Department of Labor (<i>Jan 2024</i>) |
| • Certificate in Software Development Engineering | TLG Learning (<i>Jan 2023</i>) |
| • Full Stack Web Development Certificate | Sabio School of Software Engineering (<i>Jun 2022</i>) |

EDUCATION

University of Oklahoma	<i>Norman, OK (Expected May 2026)</i>
-------------------------------	---------------------------------------

Master of Science in Applied Computing

Concentrations: Data Security, Network Security, Machine Learning, Cloud Computing

San Diego State University	<i>San Diego, California (May 2019)</i>
-----------------------------------	---

Bachelor of Art in Business & Entrepreneurship

Concentrations: Project Management, Operations Management, Data Analysis

LEADERSHIP & MENTORSHIP

President, National Pan-Hellenic Council

- *Led a 60+ member organization in planning and organization of events, programs, and mentorship initiatives*

Mentor, Dr. JAM Youth Mentorship Program

- *Guided 15 high school students in career development*
